

980

Full-power
examination chair/
minor procedures table

Reliance[®]

980

The chair that's a world power.

As the culmination of nearly a century of chair-crafting experience, the Model 980 is recognized around the world as the leading full-power examination chair/minor procedures table.

Powered Hydraulic Base and Articulating Top

Use finger switches and corded foot switch to raise, lower or recline chair into any position without breaking contact with patient. Eliminates wasted movements. An auto return button automatically returns the patient to the low, upright position.

Memory Positioning/Safety Switch

A memory switch allows you to instantly pre-select the chair's most used position. The patented programmable safety switch disables side and foot switches which prevents children from operating the chair.

Membrane Switches

Membrane switches enhance the Model 980's sleek design and contribute to its durability and safety. They last 10-times longer than mechanical switches, eliminate the need for high voltage and allow limited programming of chair functions. Back lighting eases work in a dimmed room. Mechanical switches available as option.

Dual Rotation Locks

Easily accessible levers located on both sides of seat enable practitioner to swivel chair 330° without changing position.

Large Hinged Footstep

The 8" x 13" footstep supports patient's legs, and provides safe ingress and egress. Tilts out of way. Padded underneath for comfort.

Headrest

Fully adjustable, concave upholstered headrest offers superior head and neck support. Locks firmly and unlocks with a single hand. Wide range of positions. Pillow headrest and articulating pillow headrest are available as options.

Armrests

Armrests lock in place. Release mechanism allows convenient ingress and egress from either side of chair. Padded underneath for comfort.

Finishes and Upholstery

Hand-sewn upholstery with high density foam holds its shape for years. Cushions remove for rapid cleaning and replacement. Our selection of 14 vinyl colors will match any décor. Base is available in three standard enamel colors: #15 Silver Smoke, #17 Light Beige, or #20 Pearl. All materials are fire retardant. To request a color selection card, contact your dealer or call Reliance at 1-800-735-0357.

The UL Mark of Quality

The Model 980 chair has passed rigorous testing by Underwriters Laboratories, which assures its quality and safety for you and your patients.

Dimensions and Specifications

Base dimensions: 24". Overall width: 24 1/4". Overall depth in chair position (excluding headrest): 36". Table position: 60". Seat: 18 1/2" (wide) x 18" (deep). Choice of two base heights: HIGH: 23" lowered, 34 1/2" raised; LOW: 20 1/2" lowered, 29 1/2" raised. Distance between armrests: 19". Shipping weight: 345 lbs. Electrical: (Standard) 110 volts, 60 Hz, 8.0 amperes total; (Optional) 230 volts, 50 Hz, 4.0 amperes.
